SITUATION SUMMARY

Weather of Concern

Northern California

- Beaches will be potentially hazardous on Thursday for portions the extreme Northern California coast.
 - A westerly moving system will begin to build Wednesday night bringing a threat of sneaker waves by Thursday morning.
 - The threat for sneaker waves will continue Thursday afternoon and evening as the westerly swell builds.
 - Potentially hazardous beach conditions will persist into Friday morning when the incoming swell peaks.
- The ridge centered over the West Coast will continue to bring above average temperatures and dry conditions to California.

Southern California

- Santa Ana wind conditions will weaken today, but light offshore winds are expected to persist through Wednesday.
- The offshore flow and high pressure aloft will support unseasonably warm temperatures, and record highs are expected in many locations Wednesday and Thursday.
- In addition, very dry conditions will maintain elevated fire danger through this time period.
- The occurrence of unseasonably hot temperatures for this time of year may result in heat-related impact for certain groups, including the elderly, or those working or recreating outdoors.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA

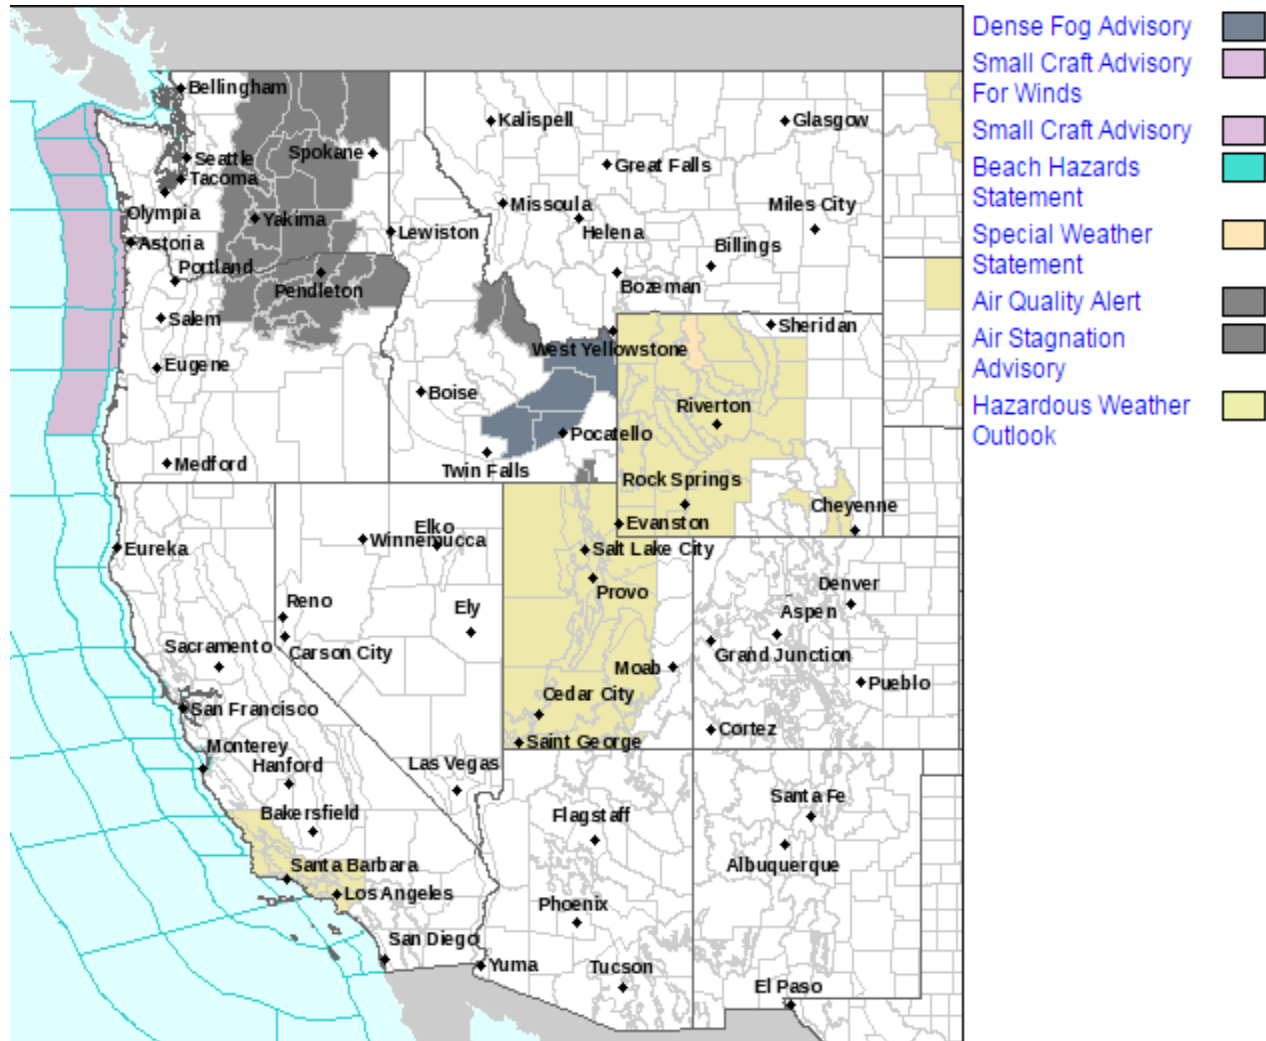

Strong high pressure with near-to-record afternoon temperatures will be in place again today. Afternoon maximum temperatures will be a20 degrees above normal. Over the next few days, the current, strong high pressure ridge will weaken somewhat as the eastern edge of a massive Gulf of Alaska trough exerts some influence on the ridge. The trough will struggle to do more than send a few high clouds and somewhat cooler temperatures our way, however, until perhaps later in the week. As a result, a bit more cloudiness will arrive and some precipitation for the far northwest areas Friday night. Otherwise, expect a continuation of dry mild weather through the 7 day period. Dry, gusty north to east winds are expected to continue through early afternoon Tuesday, then develop again over the weekend. Some areas will have rather low afternoon relative humidity (RH) and quite poor overnight RH recovery.

SOUTHERN CALIFORNIA

Weakening surface high pressure over the Great Basin will bring northeast to east winds of 15 to 25 mph with gusts to 40 mph to the mountains and below the canyons and passes of Southern California through early this afternoon. Record or near record temperatures will occur today as a strong ridge aloft remains over California. Maximum temperatures will be in the mid 60s to mid 70s across the mountains and 80s to low 90s in the valleys. The strong ridge aloft will slowly weaken and shift east bringing a gradual cooling trend to the region Wednesday through Saturday. Another ridge of high pressure will build into California from the Pacific causing temperatures to warm Sunday through early next week. Minimum humidity will be mainly in the single digits and teens away from the Central Valley through early next week. Gusty offshore winds will surface over portions of Southern California once again Sunday into early next week.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on the first Wednesday of each month.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:
